The Resource Center

ADRCs are known to be “No Wrong Door (NWD)” or “Single Entry Point (SEP)”, and are designed to serve as highly visible and trusted places available in every community across the country where people of all ages, incomes, and disabilities go to get information and one-on-one counseling on the full range of long term living and support services options. Nationally, ADRC programs have taken important steps towards meeting AoA and CMS’s vision by:

- Creating a person-centered, community-based environment that promotes independence and dignity for individuals
- Providing easy access to information and one-on-one counseling to assist consumers in exploring a full range of long-term support options
- Providing resources and services that support the needs of family caregivers.

About Us

ADRC programs provide information and assistance not only to individuals needing either public or private resources, but also to professionals seeking assistance on behalf of their clients and to individuals planning for their future long-term care needs.

What types of services can be considered?

Depending on individual needs and choice, information & assistance are provided to access:

- In-Home services
- Health & Nutrition Services
- Prescription Drug Assistance
- Housing & Home Modifications
- Independent Living Skills

Is there a charge for this help?

Information and assistance is provided free of charge. Agencies providing services may charge fees.

What kind of help is provided?

Depending on each individual’s requests and needs, the Resource Center can provide:

Benefits Counseling: Help individuals apply for public and private benefits to which they are entitled such as Medigap policies and Medicare Part D.

Care Coordination and Transition Assistance: A client-centered assessment based interdisciplinary approach to creating links between and among the major pathways that people travel while transitioning from one setting of care to another.

Information and Referral : Promoting awareness of the various options that are available in the community, especially to the underserved, hard-to-reach population.

Intake/Assessment: Assistance in the form of access in which the older person or persons with disabilities and/or their caregivers are experiencing diminished functioning capacities, personal conditions, or other characteristics which require the provision of services by formal service providers. Activities involved include gathering personal information, assessing needs, developing care plans, authorizing services, arranging services, coordinating the provision of services among providers, follow up, and reassessment as required.

Long-Term Care Futures Planning: provides assistance to individuals who anticipate having long-term care needs to develop a plan for the more distant future

Options Counseling and Assistance: Provides counseling and decision support, including one-on-one assistance to consumers and their family members and/or caregivers.
