# Barren River Area Development District

# Annual Report

### A Statement from the Board Chairman

"Serving as Chair of the Barren River Area Development District has been a great honor. During the past year, many community enhancements and economic development improvements have been made in our region through the various programs administered by the BRADD staff. The BRADD gives elected officials and community leaders an opportunity to work together in order to improve the quality of life of the citizens in our region. The BRADD staff has been a vital component of achieving these goals and facilitating regional cooperation."

Greg Wilson, Board Chair

### A Statement from the Executive Director

Eric Sexton

Fiscal Year 2017 precipitated many changes for the BRADD. Interim Director Gene Becker led the agencu through many fiscal and structural changes as the board searched for a new director. The focus of serving nearly 300,000 citizens and 4,000 square miles of the region remained the primary concern and driving force as the agency adjusted to program changes and funding issues at state and local levels. BRADD continued to maintain its federal and state partnerships and work toward regional cooperation under the leadership of Mr. Becker and the direction of the Executive Council. Change was theme for FY 2017 and continues into FY 2018 as the BRADD Board of Directors appointed a new director in May to begin July 1, 2017. This annual report is a compilation of work which I cannot take credit for, but can attest it comes from an agency deeply rooted in doing what's right for betterment of the communities we serve. On behalf of the BRADD and the previous administration, we present the FY 2017 Annual Report as a testament to the importance of the work we do each and every day regardless of the hurdles presented. We are engaged in Fiscal Year 2018 with enthusiasm and renewed purpose in the mission of our agency as regional partner.

### **Our Funding Partners**

### **Community & Economic Development**

#### Community Development Block Grant (CDBG)

The US Department of Housing and Urban Development (HUD) funds the CDBG program to provide assistance to communities for use in revitalizing neighborhoods, expanding affordable housing and economic opportunities, providing affordable housing and economic opportunities, providing infrastructure and/or improving community facilities and services. With the participation of their citizens, communities can devote these funds to a wide range of activities that best serve their own particular development priorities. All project activities must meet at least one of three national objectives:

- benefit to low and moderate income persons
- prevention or elimination of slums or blight
- meeting particularly urgent community development needs.

There are five eligible program areas:

- 1. Community Emergency Relief Fund (CERF)
- 2. Economic Development (Traditional & Non-Traditional
- 3. Housing
- 4. Public Facilities
- 5. Community Projects

#### **Community Facilities**

BRADD Staff assisted in the development of projects and application for funding of 4 community development projects within the BRADD area during FY17. These applications resulted in more than \$423,500 in federal funding to improve communities in the BRADD area. BRADD staff works with communities and local government staff to administer community development projects, including the construction of fire stations, senior centers, and community centers.

### **Community & Economic Development**

#### **Economic Development**

BRADD works with private businesses to encourage economic development through the expansion of needed infrastructure to spur the creation of jobs. BRADD encourages the use of CDBG funds paired with private investment to initiate these projects. During FY17, BRADD applied for \$2,497,000 in funding contributing to \$195,000,000 in investment from the private sector and the creation of approximately 207 new jobs.

#### **Recreational Planning**

#### **Recreational Trails Program**

The Recreational Trails Program, administered by the Department for Local Government (DLG), assists communities in the development and maintenance of public trails for recreational purposes. Eligible activities for trail use include walking/jogging, bicycling and mountain biking, hiking, equestrian uses, in-line skating, and other off-road motorized and non-motorized uses. The following cities and counties submitted an application through the BRADD and/or received funding during FY17:

#### Land and Water Conservation Fund

The LWCF grant program is a matching reimbursement grant program of the National Park Service for the advancement and preservation of public outdoor recreation areas and facilities. Eligible activities include sports and playfields, boating facilities, trails, benches, and shelters. The following cities and counties submitted an application through the BRADD during FY17:

### **Hazard Mitigation Plan Update**

During FY'16 and FY'17 the BRADD updated the regional Hazard Mitigation Plan and the plan was officially approved by FEMA for a period of five (5) years, to April 27, 2022.

The hazard mitigation update planning process used a rigorous mixed-methodology to evaluate all hazards that impact the region and determine their overall significance. The analysis of regional hazards relied upon a combination of quantitative data gathered from a variety of sources including the National Weather Service, Hazus, and the Midwestern Regional Climate Center, and BRADD hazard maps, and qualitative data gathered by collecting information from individuals who live and work in the region. This allowed the BRADD to determine community preparedness by assessing when these hazards occur, how they rate on a scientific scale, and their impact on the daily life of residents of each county.

Quantitative data for each hazard was collected and assessed to determine historical extent and future probability of a hazard. When the data was available, the BRADD produced maps that show vulnerability or past experience of a hazard.

At the end of the planning process, the BRADD's Regional Planner compiled a list of mitigation projects for each county. The projects listed for each jurisdiction were based on action items included in the 2011 plan, outcomes of tabletop exercises, and suggestions from county subcommittee participants and survey respondents. As a committee, each project was discussed and prioritized on three criteria: life safety, property protection, and technical implementation. A priority score of very high, high, medium, and low was assigned to each action item.

# **Regional Transportation Planning**

The BRADD Regional Transportation Program provides coordination of the public review and input process, and is facilitated through the state's Area Development Districts. BRADD staff coordinates activities in support of the Statewide Transportation Planning process with planning activities of other local agencies, interests, and/or organizations, including MPOS and neighboring ADDs, in order to share information, minimize duplication of efforts, and to understand and address the impacts of transportation on other planning activities.

During FY17, the ADD further developed the Public Involvement Plan (PIP) and the Regional Transportation Concept Plan to include a specific set of resource documents. The PIP is continually updated and followed to reflect new initiatives and tasks undertaken to include and reach the public within the region. BRADD staff continued to maintain an updated database of socioeconomic and demographic populations data pertaining to and transportation impacts in our region. As Census data is released. BRADD staff work to update information to be included in the Public Involvement Plan. The Regional Transportation Concept Plan will be used as a resource document for the entire region. Staff also wrapped up a large sidewalk data collection project for all ten counties.

The ADD is responsible for the development, review, and ranking of Project Identification Forms (PIFs). BRADD staff focused on the development, evaluation, and maintenance of PIFs within the database. These projects underwent a prioritization process in FY17 for inclusion into the Recommended Highway Plan for the Kentucky Transportation Cabinet. BRADD staff created a formula to disperse the 40 sponsorship slots among each of the 9 non-MPO counties for Prioritization. Counties with a population 20,000 (Barren and Logan Counties) will sponsor 6 projects and the counties with a population under 20,000 (Allen, Butler, Edmonson, Hart, Metcalfe, Monroe, and Simpson Counties) will sponsor 4 projects. Regional Transportation The Committee met on July 20, 2017 to review the regional list of project scores provided by the Cabinet. The scores were developed using the SHIFT formula. The RTC reviewed the list and selected 25% of the projects to award with boost points. The scores were adjusted and the final list was approved by the committee and submitted to KYTC.

#### **Transit Planning**

The BRADD Regional Transit Program provides an assessment of available services that identifies current transportation providers (public, private, and nonprofit). Through this assessment of transportation needs, the program seeks individuals to be served with the funding sought, that is, persons with disabilities, elderly adults, and individuals with low income. In FY17 the BRADD Regional Transit Program, through FTA Section 5310, sought funds to provide financial assistance for the purchase of capital equipment for one social service agency. The BRADD was awarded funding for the purchase of three vehicles to provide improved mobility of elderly persons and persons with disabilities. Throughout the year the BRADD practiced strategies, activities, and/or projects to address the identified gaps between current services and needs, as well as opportunities to improve efficiencies in service delivery.

Staff submitted two Transportation Alternatives Program projects during FY 17 for funding.

# **Geographic Information Systems**

Geographic Information Systems (GIS) Programs support the goal of full regional access and integration. BRADD recognizes the value of current geographic information and strives to improve the quality of information and its availability and use in the region.

#### E911 System Mapping

BRADD Staff updates address, structure, and route information for 911 systems in Edmonson, Hart, Logan, and Metcalfe Counties. These updates continue to provide accurate information for use by emergency responders.

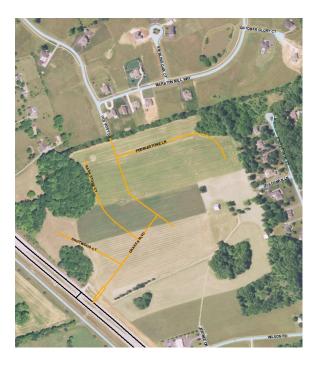

#### **Road Centerline Mapping**

The Kentucky Transportation Cabinet contracts with the Area Development Districts to map road centerline data using Global Positioning System (GPS) technology to ensure consistency and accuracy in the data collection process. BRADD annually reviews each county's roads, collects data on new or changed roads, adds address range attributes for use in 911 systems, and submits these updates to the state for inclusion in current maps. During FY17, BRADD completed updates within the required time, ensuring the highest accuracy to the census of roads to be included in the County and Municipal Road Aid Programs and used by emergency dispatch systems.

#### Water/Wastewater Infrastructure Mapping

As part of a multi-year contract with the Kentucky Infrastructure Authority (KIA), BRADD staff mapped hydrants, water valves and manholes using GPS technology. These features were collected for all water & wastewater systems in the BRADD region that were considered to be to be a small or medium size system, as defined by KIA.

### Water & Wastewater Planning

The BRADD works in conjunction with the Kentucky Infrastructure Authority to undergo a project prioritization and ranking process to determine regional funding priorities each year. During FY17, the Barren River Area Water Management Council worked to rank 48 water and 46 wastewater projects in the BRADD area. The ranking lists were approved by the regional council and forwarded to state authorities for consideration in statewide funding programs. The top funding priorities for the Barren River Area include:

#### **Drinking Water**

The Barren River Area Development District (BRADD) is a state and federal designated Area Agency on Aging and Independent Living (AAAIL) under the direction of the U. S. Administration on Aging and Community Living and under the supervision of the State Department for Aging and Independent Living. The BRADD/AAAIL holds the responsibility of developing and administering a wide variety of comprehensive, coordinated, and cost-effective, in-home and community based services. These serve to help older and disabled individuals to maintain their dignity and quality of life, while living safely in their homes and communities. The AAAIL is administered by BRADD/AAAIL staff, advised by Barren River Aging Advisory Council, and operated under the supervision of the Barren River Area Development District Board of Directors.

#### **BRADD/AAAIL Service Offerings**

The BRADD/AAAIL serves as a "one stop-shop" through the Aging and Disability Resource Center, which is designed to enhance the identification of appropriate resources and coordinate with other agencies, in order to ensure efficient and effective integration of needed services and resources for aging and disabled populations. The BRADD/AAAIL Aging and Disability Resource center recorded 1726 calls during FY 17. Services administered and provided include:

- Aging and Disability Resource Center Services, which include information and Assistance in gaining access to services such as housing, transportation, home health, and other services and resources;
- Options Counseling,
- Case Management and Assessment;
- Quality Assurance and Continuous Improvement;
- In-home Services including home management, personal care, respite, and escort to medical appointments;
- Senior Center Services including congregate meals, home delivered meals, information and assistance, nutrition education, telephone reassurance, transportation, disease prevention and health promotion programs;
- KY Rural Underserved Geriatric Interprofessional Education Program;
- Family Caregiver Support and Grandparents Raising Grandchildren Programs;

- Home and Community Based Waiver (HCBW) Participant Directed Services (PDS) Service Advisory, and Fiscal Management, HCBW Traditional Case Management, and Michelle P Waiver Case Management Services.
- Adult Day Health/ Alzheimer's Respite Care Program,
- District Long Term Care Ombudsman and Elder Abuse Prevention Programs;
- Evidence Based Health Promotion Programs such as Walk With Ease and Chronic Disease Self-Management;
- Personal Care Attendant Program;
- Legal Assistance and State Health Insurance and Assistance Program (SHIP)/ Benefits Counseling Programs; Medicare Improvement Patient and Provider Act (MIPPA) Program.

#### **Title III Services**

Older Americans programs include a wide array of supportive services for persons 60 years of age and over. Many of these services are provided trough local Senior Centers. There is at least one Senior Center in every county in the BRADD region. At the centers older persons can become acquainted with each other and learn about services available in the community. These programs are provided based upon the individuals eligibility. The Title III Services include:

#### Family Caregiver Support Program (Title III-E)

The National Family Caregiver Support Program is a federally funded program providing services to primary unpaid caregivers who are assisting elderly or raising a grandchild. A family caregiver is defined as an adult family member or other individual who is an informal or unpaid provider of in home services and community care services for a "frail" older individual who is 60 years of age or older or an individual of any age with Alzheimer's Disease or related disorders. An adult 18 years of age and older with a disability can qualify if they are in the care of their grandparent or other relative caregiver. A grandparent or older individual who is a relative caregiver means a grandparent or step-grandparent of a child, or a relative of a child by blood, marriage, or adoption (does not include a parent) who is 55 years of age or older and— Theses services include:

#### Personal Care Attendant Program (PCAP)

The Personal Care Attendant Program's (PCAP) goal is to provide the mentally alert severely physically disabled adults 18 years of age or older who want to live independently but need both the help of a personal care attendant and the financial assistance necessary to hire an attendant. This program allows these individuals to remain in their homes and local communities who may otherwise be at risk of institutionalization. A personal care attendant is employed by the disabled individual themselves. The disabled individual supervises and advises their personal care attendant. The PCAP program is available to be administered in all BRADD counties. The services include:

#### Evaluation

15 individuals	<b>43 hours</b>
<b>Program Coordinati</b>	ion
18 individuals	201 hours
Subsidy	
16 individuals	18,609 hours

#### **Participant Directed Services Program**

The Participant Directed Services program provides eligible Medicaid Home and Community Based Service (HCBW) and Michelle P Waiver members with greater choices in selecting care providers for non-medical waiver services. Members who choose PDS can hire family members, friends or neighbors to provide these services. Members who need assistance in directing services can select a representative to assist. During FY 2017, this program serviced the following:

228 clients served 362 individuals employed \$2,256,804 spent

#### 13th Annual Mental Health and Aging Conference

On Thursday, October 27th, 2016, the Mental Health and Aging Coalition hosted their annual conference at the National Corvette Museum, attracting 140 participants and 25 vendors. Educational forums were presented, featuring topics such as Supports for Community Living -Supporting Individuals in Their Own Communities, Understanding Cognition in an Aging Population, End of Life Biopsychosocial Needs and Opportunities, Disaster Preparedness for Special Needs Populations, and Adult Protective Services and the Caregiver Misconduct Registry.

#### Home Delivered Meals Program

The Kentucky Center for Economic Policy asked the BRADD/AAAIL to assist with an "Impact video" about the Home Delivered Meals Program from meal preparation to delivery. On December 8th, 2016, BRADD Case Managers, the Edmonson County Senior Center Manager and Community Action of Southern Kentucky completed the shooting of the video. The Centers focus here was to illustrate more investments in our communities. The video is available on the center's website <a href="http://www.kentuckytogether.org/blog/">http://www.kentuckytogether.org/blog/</a>

#### "Be a Santa to a Senior" Delivers Gifts to 100 Clients

BRADD/AAAIL staff submitted applications for our clients for Home Instead's "Be a Santa to a Senior" Program. This program provides

Christmas presents to clients in need which may include cleaning supplies, personal care items, clothing, and other necessities. These items are being delivered to our most needy clients in December. Approximately 100 clients received a gift from this program.

Scam Jam

The Barren River Mental Health and Aging Coalition and the Elder Abuse Prevention Council and Kentucky Financial Institutions partnered to host a Scam Jam on September 22, 2016 from 9 am to 2 pm at the Barren River State Park. This educational event was for seniors, caregivers and the general public to help them make informed decisions to prevent financial exploitation and other types of financial abuse. Over 110 participants attended this event to learn about how to avoid financial exploitation and scams.
