# A WORD FROM THE EXECUTIVE DIRECTOR

*As we established new norms in the COVID-19 world and as our area experienced a terrible natural disaster disrupting the heart of the region, we found it ever pressing to re-connect and renew partnerships, both old and new.*

The close of fiscal year 2022 was a special moment for me, marking my 5th year as BRADD's Executive Director. Connections are what comes to mind as I reflect over the last Fiscal Year. As we established new norms in the COVID-19 world and as our area experienced a terrible natural disaster disrupting the heart of the region, we found it ever pressing to re-connect and renew partnerships, both old and new. While December 2021 is a time we will not soon forget for many of our communities, our region's local elected officials and community leaders continued to foster resiliency and rebirth.

As of June 30th, 2022, BRADD administered over \$46 million of local project investment through our Community & Economic Development department. Our team led over 120 planning meetings across the district as we worked to overhaul the Comprehensive Economic Development Strategy (CEDS) and the Hazard Mitigation plans for our communities. A new feature this cycle was to digitize these plans into an interactive website, updating goals and objectives in real time. In an effort to help our communities explore and expand broadband, we presented a regional broadband symposium, releasing detailed county level dashboard feasibility studies for each jurisdiction. Less than 10% of counties in the country have this level of data and now in the BRADD region, 100% of our communities have a comprehensive study to help guide them in deployment efforts.

Our Area Agency on Aging & Independent Living ensured over 5,600 clients needs were met, expending over \$11.4 million of federal and state funding. Focusing on the needs of hungry seniors, we ensured over 90,000 meals were served across the region and worked with our community partners to deliver valuable programs and services in each community. Through a generous contribution from AARP we have disbursed nearly \$50,000 of funding for relief efforts to tornado victims in our region.

This fiscal year the official 2020 Census numbers arrived and clearly demonstrated what we expected, growth! Our region now reflects 312,062 citizens. Almost every single BRADD county experienced substantial growth, indicating a bright future economically, and the need for regionalism and cooperation to thrive. Southcentral Kentucky remains a positive place to live, work and play! On behalf of the BRADD, we present the fiscal year 2022 Annual Report as a reflection of connections to the work performed each and every day to improve the quality of life and economic well-being of our citizens.

ERIC SEXTON, BRADD EXECUTIVE DIRECTOR

# A WORD FROM THE CHAIRMAN

Success can be measured in many ways. For some it is getting the prize or making the most money; for others, it is surviving the storm. For those of us who call the BRADD region home, the latter was true in 2021. Just as we were coming out of the COVID-19 Pandemic and we were experiencing a return to normalcy, the tornadoes of December 2021 struck. While the tornadoes were centered in a few specific counties, every county was affected because every county responded. Elected officials in all ten counties immediately set in motion a response to those in need. While we have in no way completely recovered from the pandemic or the storm, we are moving forward at a rapid pace. It seems our battle cry became, “we will not be defeated, we will work together, we will survive.”

When I became your chairman four years ago, I had no idea circumstances would take me down the path I have traveled. From pandemics to tornadoes, these four years have been eventful. As I address you for the final time, I am so pleased to report, even after these tragic events, the state of our region is strong. The people of our region are resilient. The leadership in our region is amazing, and yes, your BRADD staff has been up to the challenge at every turn.

We often hear, “it takes a village to raise a child,” I suggest it takes everyone to make a successful region. I am so thankful for all who contribute to the success of the Barren River Area Development District. The motto of the Commonwealth states, “United we stand.” Nowhere is this more evident than in our ten counties. Nowhere is it more evident than in the staff and leadership of the BRADD. Working together we have survived and thrived. We see successes every day in our area because of the dedication and hard work of our elected officials and the leadership and staff of the BRADD.

It has been an honor to serve these past four years as your chairman, to work with the management and staff of BRADD, the mayors, county judge executives and citizens of the region. Thank you to all who have given of themselves to make the past year a success, even in the face of so many challenges.

**STEVE THURMOND, BRADD BOARD CHAIRMAN**

# Our Mission

As a global pandemic paired with the most devastating storms in recent history continued to reinforce the need for widespread adaptability in our ten-county region, BRADD's mission remained the same: to preserve and advance the quality of life and economic well-being for the citizens of the BRADD through regional cooperation.

To this end, BRADD strives to provide support and assistance to the elected officials, leaders and community stakeholders of the region in achieving their own missions.

To help accomplish this, Barren River Area Development District was the recipient of a generous donation of \$50,000 from AARP to provide tornado relief assistance to persons 50 + years of age who were directly impacted from the December 10-11, 2021, tornadoes in Barren, Hart, Logan and Warren Counties.

Using these funds, BRADD staff was able to help some of our current older adult clients as well as older adults in the community with basic needs, personal belongings, furnishings, relocation assistance and other necessities.

In total, BRADD was able to provide assistance to 11 participants and their families during this fiscal year, and plans to continue to assist those who were affected as needs arise.

## A Look at the Numbers

During the past year, BRADD identified several data points to be used as baseline data to track trends across all 10 counties in the Barren River Area Development District's footprint. A few of those data points are highlighted here. Information has been sourced from U.S. Census Bureau and 2019 American Community Survey 5-Year Estimates.

These data points are kept current by county at [planning.bradd.org](https://planning.bradd.org). Visit [planning.bradd.org](https://planning.bradd.org) (or scan the QR Code at the left) to view more demographic data and information regarding the region.

# AGING & INDEPENDENT LIVING SERVICES

The Barren River Area Development District (BRADD) is a state and federally designated Area Agency on Aging and Independent Living (AAAIL) under the direction of the U. S. Administration on Aging and Community Living and under the supervision of the State Department for Aging and Independent Living. The BRADD/AAAIL holds the responsibility of developing and administering a wide variety of comprehensive, coordinated, and cost-effective, in-home and community based services. These services help older and disabled individuals to maintain their dignity and quality of life, while living safely in their homes and communities. The AAAIL is administered by BRADD/AAAIL staff, advised by Barren River Aging Advisory Council, and operated under the supervision of the Barren River Area Development District Board of Directors.

In 2017, Ms. Olga had a stroke that affected her speech. She was later diagnosed with Alzheimer's. Neither of these disabilities have affected her ability to find joy in her life. Especially with her fur baby, Boots! Ms. Olga turned 91 years old on August 30th, 2022.

BRADD has assisted with Ms. Olga's care for some years now.

Ross has been in the Michelle P. Waiver program since 2016. Michelle P. Waiver is a program designed to help those with intellectual disabilities to achieve greater independence and have their care needs met. When Ross started, his goals were to get a job, driver's license, and move out. Since he has been enrolled, he has had 3 jobs. He has learned job skills and how to apply for and secure employment.

Her family has credited these services in having kept Ms. Olga safe in her home and out of long-term care. Her daughter, and primary caregiver, has received assistance to hire aides to care for Ms. Olga. Ms. Olga is also a participant on the Medicaid Waiver Program. This program has given her family the support they need to care for her full-time. Once a month, her Case Manager visits her home, and these visits have become an hour full of laughter and conversation that Ms. Olga really enjoys.

Ms. Olga and her family have expressed gratitude for the programs and resources BRADD has offered.

Dorothy M. is 82 yrs. young. A Russellville resident, she receives home delivered meals distributed by the senior center through Title III funds. Dorothy uses a wheelchair and she rarely leaves her home. She has no children and an elderly friend (89 yrs. old) is her sole source of informal support. As Dorothy cannot safely use a stove or oven due to her poor mobility and no one else is available to prepare adequate meals for her, she is very grateful for the meals she receives through the senior center Monday-Friday - a hot meal ready to eat! Dorothy is a sweet lady who asks for very little - a healthy meal is all that she reported as a need, although she is aware of other services that are available and that she can call her Case Manager at any time to report any needs she may have. Dorothy's Case Manager checks on her monthly and a side benefit of the meals is the fact that a meals delivery driver is checking on her 5 days per week - they make sure she is safe and sound. Dorothy is a beautiful lady and she is just one example of how our program can help the elderly in the counties we serve.

Ross has also obtained his full driver's license, purchased and maintains his own vehicle, and lives alone now. He is currently working on developing friendships and improving his physical stamina. Ross had gastric sleeve surgery several years ago and, with the help of MPW/CLS services, has managed to lose a substantial amount of weight and keep it off.

Ross loves reptiles, comic books and working on automobiles. He is employed at Piggly Wiggly and spends much of his free time fishing and enjoying the company of his family at Kentucky Lake. He hopes to lease an apartment in a small KY town somewhere near you. Way to go Ross!

# CONNECTING CLIENTS TO NEEDED SERVICES

Barren River Area Development District serves over 5600 clients through various Aging and Independent Living programs. These programs include but are not limited to in-home and community services, assessment/case management services, family caregiver support services, and social, nutritional and health promotion services.

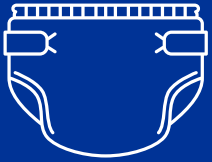

BRADD is happy to highlight some of these amazing clients here. To learn more about these services, please scan the QR code below.

To refer individuals for services through the BRADD/AAAIL you can call the AAAIL Aging and Disability Resource Center (ADRC) at 270-782-9223 or 1-800-395-7654.

In July 2021, BRADD organized a Food Drive for Needy Seniors throughout the BRADD region. BRADD partnered with Comfort Keepers and Independence Bank to distribute information and collect dry goods at Independence Bank locations and the BRADD office.

The drive resulted in 21 bags of the most-needed nonperishable goods to distribute to clients or callers in need. Thank you to our food drive partners and those who donated items!

# COMMUNITY & ECONOMIC DEVELOPMENT SERVICES

BRADD's Planning and Development Department acts as a concierge for local elected leaders, community stakeholders, business owners, entrepreneurs, and economic developers who are looking to enhance the quality of life for citizens, attract new businesses, or retain/expand existing businesses within the 10-county region. This is accomplished through numerous community and economic development services provided by the department including community comprehensive planning, water and wastewater planning, transportation planning, emergency management planning, grant writing & administration, business services, GIS services, and technical assistance to local governments. Additionally, department staff regularly coordinate with various experts to provide our communities with quality training and information on a range of topics from planning & zoning to transit driver safety.

At the foundation of the department is the BRADD's Comprehensive Economic Development Strategy (or CEDS). This guiding document is a critical mechanism that helps identify regional vulnerability and prevent or respond to economic disruptions; and is a critical component of economic resilience. Annually, the Planning & Development department reviews the BRADD's Comprehensive Economic Development Strategy and makes any needed updates. A full re-write of the plan is conducted every five years. Our current full CEDS, along with annual updates, can be found on our website: [planning.bradd.org](http://planning.bradd.org).

# UPDATING REGIONAL PLANS

In 2021, Barren River Area Development District set out to update two major regional plans: the Regional Multi-Hazard Mitigation Plan and the Comprehensive Economic Development Strategy (CEDS). Traditionally, these documents have been printed, physical plans each totaling several hundred pages. In an effort to both modernize these plans and make them more accessible to the general public, BRADD took a larger, holistic approach to strategic planning in our 10-county region and combined these updates into an overarching Community Strategic Planning Process. This process resulted in two interactive and data-driven regional websites: [planning.bradd.org](https://planning.bradd.org) and [hazards.bradd.org](https://hazards.bradd.org), and ten county-level strategic plans.

Both regional websites ([planning.bradd.org](https://planning.bradd.org) and [hazards.bradd.org](https://hazards.bradd.org)) went live in Spring of 2022, and have already been major assets to local goal implementation efforts, and as resources to state and federal partners. Looking toward the future, county-level steering committees will continue to meet quarterly to implement goals and objectives outlined in the plans. With the intention that the newly developed CEDS will truly be a living record of local and regional impact.

In Fiscal Year 2022, BRADD administered over

\$46,630,233

of investment in 81 federal and state grants awarded to our cities and counties.

# REGIONAL BROADBAND SYMPOSIUM

In June, BRADD hosted a Regional Broadband Symposium in response to an RFP that was released in July 2021. The RFP funded complete, 10 county comprehensive, broadband feasibility studies using the agency's federal CARES allocation. These studies contain information relevant to the expansion and future opportunities for broadband infrastructure.

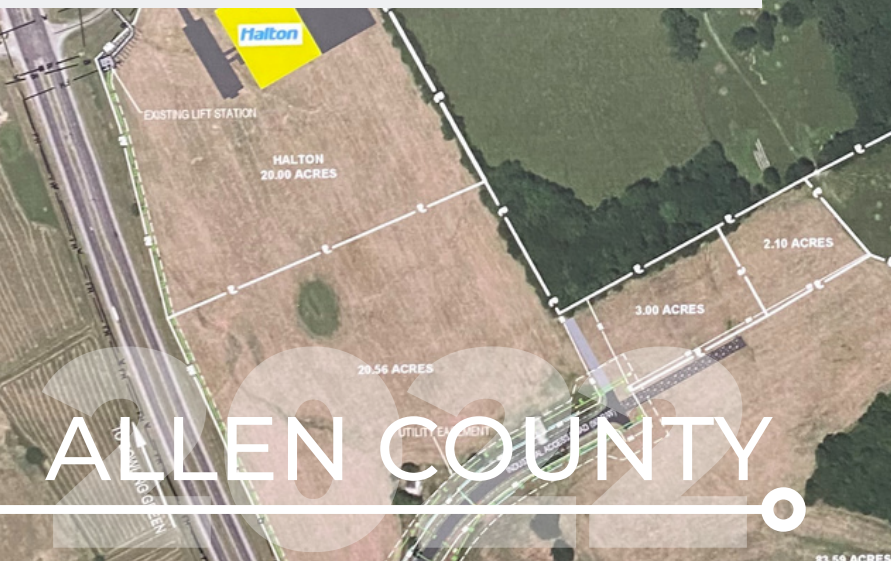

Each county level study includes individualized profiles containing information needed for communities to comprehensively plan for broadband infrastructure, including future grant funded opportunities.

BRADD's mission supports finding regional solutions to local issues. Broadband or the lack of substantial broadband development is a barrier to economic, workforce and community development. Our hope is this study will provide a resource for strategic planning for what is being recognized as a modern day infrastructure essential need.

For complete access to the county level studies, you can go to [planning.bradd.org](https://planning.bradd.org) or scan the QR Code below.

# COUNTY SNAPSHOTS BRADD'S WORK IN FY2022

## ALLEN COUNTY ALLEN SPRINGS INDUSTRIAL PARK SEWER COLLECTION SYSTEM

Allen County applied for Cleaner Water funding to install sewer infrastructure to serve the new Allen Springs Industrial Park. This project will add sewer to the 100 acre Industrial Park. To be competitive in recruiting new business to the community, it is crucial to have all utilities in the Park. Allen County has water at the site currently and is finalizing underground electric as well. The County will also be adding natural gas and fiber.

## BARREN COUNTY OLD JAIL DEMOLITION

The Barren County Fiscal Court received \$284,000 of CDBG funding for the demolition of the Old Jail property. The property, located at 107 Ford Drive in Glasgow, Kentucky, previously contained a dilapidated one-story building that was constructed in 1975 as the Barren County Correctional Center. The building had multiple safety issues including being subject to mold. Additionally, the structural block walls were separating and cracking, which was an additional safety concern for the County.

The site of the demolished building has been converted to green space until a decision is made on how to utilize the property. The County has discussed constructing a house on the lot for people who are temporarily displaced due to house fires.

# BUTLER COUNTY

## BUTLER COUNTY SENIOR CENTER

Butler County recently held a ribbon cutting for their new senior center. The new facility is more accessible, larger, and has newer appliances. The previous facility was in a location that was hard to find, and was in need of repairs/renovation. It is our hope that the new facility will be more inviting for seniors to attend. Additionally, the new center has a much larger space to accommodate more activities and participants.

## EDMONSON COUNTY SENIOR CENTER CHILI COOKOFF

In October 2021, the Edmonson County Senior Center held a chili fundraiser to support the efforts of the center. Edmonson County Senior Center volunteers cooked chili and other snacks, and accepted direct donations for the center.

The Senior Center staff were joined by representatives from other groups to support area elders including Humana. In addition to daily operation costs, the donations collected from the chili fundraiser will allow the center to host events and provide additional services for seniors in Edmonson County.

## QUARRY ROAD WATER EXTENSION

In 2018, Hart County Fiscal Court requested ARC funds to assist in the installation of a water main along Quarry Road. The much needed project was recently completed and now provides a reliable source of water to a previously unserved area.

Although the potable water service is available throughout most of Hart County, there are several rural households in the County without water service. The Quarry Road project brought water to 11 households and two commercial customers. The infrastructure upgrades will also allow for future development on Quarry Road.

## AUBURN WASTEWATER TREATMENT PLANT IMPROVEMENTS

The City of Auburn received CDBG, KIA, USDA, and EDA funding to undertake improvements to Auburn's existing wastewater treatment plant to accommodate the operation of Champion Petfoods USA, Inc. The total project cost for the treatment plan expansion is estimated at \$4,000,000. The plant's production and increase in wastewater discharge required improvements and expansion to the existing 51 year old treatment plant (last updated 26 years ago in 1989) to operate as an extended aeration process.

# TOMPKINSVILLE WASTEWATER TREATMENT PLAN

Construction is underway on the Tompkinsville Wastewater Treatment Plant's improvements. In 2018, the City of Tompkinsville applied for CDBG and KIA funding to convert the existing treatment facility to a 1.7 MGD Sequential Batch Reactor Wastewater Treatment Plant. The project is also installing a new headworks facility, replacing the chlorine disinfection system with a Ultraviolet (UV) system, rehabbing approximately 8,700 linear feet of dilapidated sanitary sewer collection mains, installing 11,600 linear feet of new force main to the Joe Harrison Carter Elementary School, and installing a new SCADA system. Construction is expected to be complete in 2023.

## SIMPSON COUNTY SENIOR CENTER VOLUNTEER APPRECIATION

In honor of volunteer appreciation day, Simpson County Senior Center held a pizza party and played various games including go-fish, ring toss, and penny drop. Volunteers won lots of prizes and had a great time celebrating each other. BRADD appreciates all of our volunteers across the many programs in each county and are grateful for the dedicated time and attention they provide.

## 50 YEARS OF HOME DELIVERED MEALS

Mr. Dwight Bobbett has been coming to the Warren County Senior Center curbside meal program for nearly a year. Dwight enjoys the variety of the meals and looks forward to his favorites like the Polish sausage, pinto beans and cornbread, and especially the roast pork and stuffing.

He greets the staff with compliments and humor and an occasional story or two. As he drives away he rolls down the window and yells, “Love you girls!” and we promptly in unison yell back “We love you too.” Occasionally, he’ll call me after he has eaten the meal to rave about my staff and thank us for being his support system.
